

App. No. 10/604,977
Amendment dated April 7, 2004
Reply to Office action of March 2, 2004

Amendments to the Drawings:

The attached drawing sheet includes changes to Fig. 2. This sheet replaces the original sheet containing Fig. 2.

In Fig. 2, one change has been omitted from among the formal corrections required by the Examiner's amendment attached to the Office action (Notice of Allowability) of March 2, 2004 and indicated on page 2A therein. Namely, the Examiner's indication of a corrected lead line to show what reference mark 10 refers to has been left out, as has the reference mark itself. The other corrections—namely, redrawing the lead line for reference numeral 2c, and correcting mislabeled reference numerals 10 and 12 respectively to 12 and 14—have been preserved.
